UNCOMPROMISING VALUE

The MINOX ZA3 and ZA5 Riflescopes

Deciding which riflescopes to own can be daunting. Perhaps the single-most important hunting gear you'll ever purchase, there are dozens of brands from which to choose, each with seemingly endless choices of models at widely varying price and each claiming the "best" this or the "most" that.

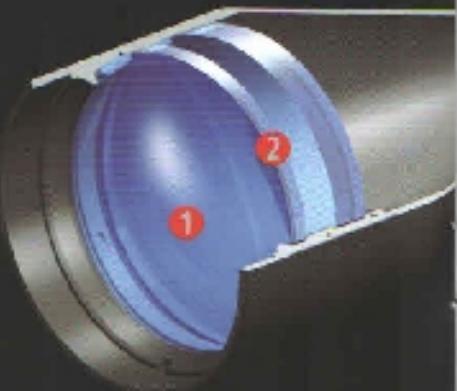

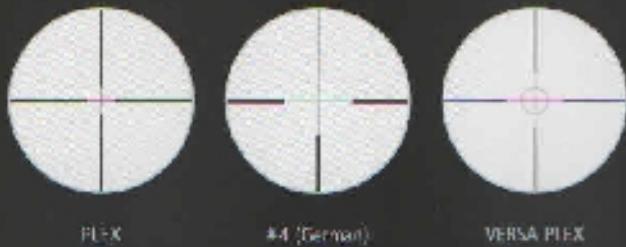

At MINOX, we've simplified the process while distinguishing MINOX riflescopes from the rest by creating riflescopes with the features hunters want most. Like special high-tech glass with outstanding optical characteristics from well-known manufacturers all-over the world, fully multi-coated lens elements, precise windage and elevation adjustments, up to 5 times magnification zoom ranges, and argon-purged water and fog-proof design – all at surprisingly affordable prices. Plus, MINOX backs each RifleScope with a comprehensive Full Coverage Lifetime Warranty and the heritage of one of Germany's premier sport optics companies. For the uncompromising shooter, MINOX riflescopes stand distinctly alone in providing uncompromising value.

UNCOMPROMISING CRAFTSMANSHIP

MINOX riflescopes are designed in Germany and assembled in the USA. Each riflescope is crafted from lightweight, incredibly tough aircraft-grade anodized aluminum and features standard one inch mono-tube construction for easy, low-profile mounting.

MINOX riflescopes are waterproof and system purged with inert argon gas to prevent fogging on inner glass surfaces and provide corrosion protection for critical precision mechanisms. And each is covered by the MINOX comprehensive no-questions-asked warranty with service provided in the U.S..

Standard features include:

- [1] Lenses made of high-tech glass with outstanding optical characteristics
- [2] MINOX MT[™] coating - up to 21 different layers applied to the glass surface to greatly improve light transmission, brightness, contrast, detail, and color rendering
- [3] Windage and elevation knobs, finger adjustable, with positive & precise reticle movements of 1/8 MOA or 1/8 MOA (models 265 4-20x50 only), zero resettable
- [4] Long four inch plus eye relief
- [5] Rubber cushioned fast-focus eyepiece
- [6] Smooth operating soft-touch rubber variable power ring
- [7] Objective parallax side focus adjustment (on selected models)

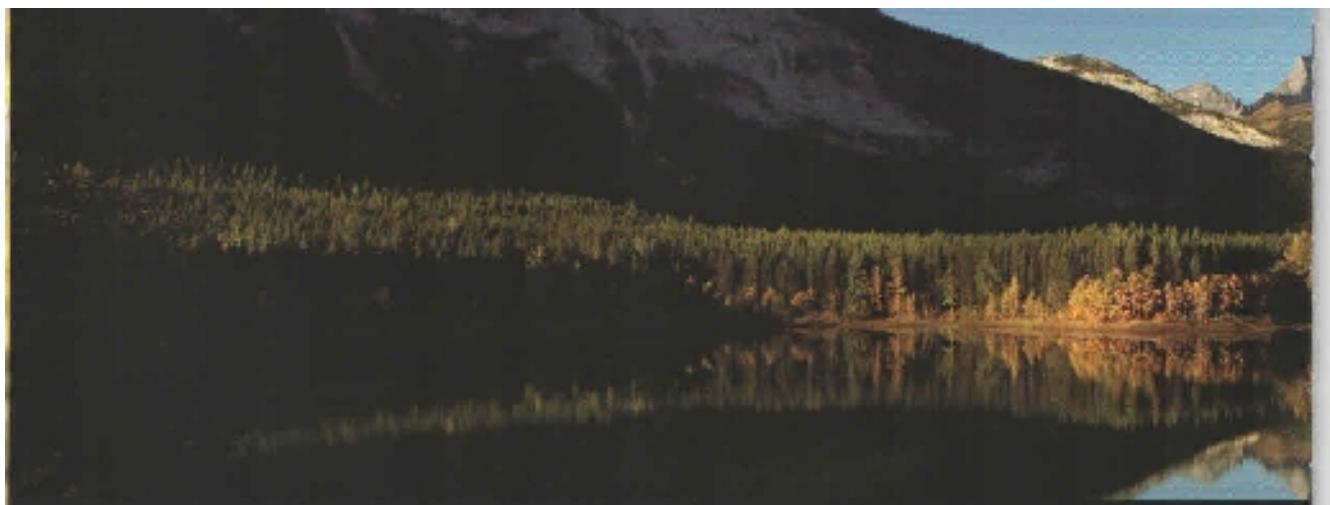

Each MINOX® Riflescope comes complete with a Scopecoat™ protective field cover (except 2656-3091).

UNCOMPROMISING PERFORMANCE

The lineup of fully-featured, high performance MINOX Riflescopes is designed to meet the practical demands of any hunt; from the low magnification needs of woodland hunters to the higher power requirements of the open plains and high mountains.

**ZA3 3-9x40
PLEX / 44 / BDC**

3x to 9x variable zoom, 40 mm objective.
Perhaps the ideal general purpose riflescope.

**ZA3 3-9x50
PLEX / 44 / BDC / XR-BDC**

3x to 9x variable zoom, 50 mm objective.
The all purpose scope for low light situations.

**ZA5 1.5-8x32
PLEX / 44 / VERSA-PLEX**

1.5x to 8x variable zoom, 32 mm objective. Versatile, compact and
lightweight – perfect for shotgun, lightweight rifle, or dangerous game.

MINOX
VISIBLE INNOVATION

ZA5 2-10x40

PLEX / #4 / BDC / XR-BDC

2x to 10x variable zoom, 40 mm objective.

The scope that is equally at home from woodlots to mountain tops.

ZA5 3-15x42

PLEX / #4 / BDC / XR-BDC

3x to 15x variable zoom, 42 mm objective.

Great scope for open spaces and longer ranges.

ZA5 2-10x50

PLEX / #4 / BDC / XR-BDC

2x to 10x variable zoom, 50 mm objective.

Versatile magnification range with large objective low light performance.

ZA5 3-15x50SF

PLEX / BDC / XR-BDC

3x to 15x variable zoom, 50 mm objective, Side Focus Parallax Adjustment

and large objective extends accurate shooting range and the shooting day.

ZA5 4-20x50SF

PLEX / BDC / XR-BDC

4x to 20x variable zoom, 50 mm objective.

Side Focus Parallax Adjustment for accurate shot placement and extended ranges.

ZA5 6-30x56SF

PLEX / BDC / XR-BDC

6x to 30x variable zoom, 56 mm objective. High magnification, large,

objective and Side Focus Parallax Adjustment for extreme range shooting.

MINOX
VISIBLE INNOVATION

Uncompromising performance begins with the glass - the lens system that delivers target-popping contrast and "can't hide" brightness dawn or dusk, rain or shine, ensuring accurate shot placement no matter how challenging the conditions. MINOX riflescopes feature lenses from well-known German as well as worldwide glass specialists.

Special High-tech glass with outstanding optical characteristics

The grade and quality of optical glass is decisive for the brilliance, detail sharpness, light transmission and colour accuracy of the rifle scope. The MINOX engineers traditionally use only special high-tech glass from the finest glass factories around the world for their observation and target optics.

German Engineering

Highest quality and traditional German engineering values are held in high esteem all over the world. Values such as quality, precision and ruggedness in sport optics development and manufacturing reflect the MINOX philosophy. The ZA riflescopes are manufactured with maximum care and reliability to meet the sophisticated demands of our customers.

MINOX Lifetime Total Coverage Warranty

While every MINOX rifle scope is built to operate perfectly in the harshest environments and after enduring the roughest handling, uncontrollable, unexpected things can happen in the field which results in a damaged rifle scope. That's why MINOX provides complete* no-fault warranty protection with every MINOX rifle scope: MINOX will repair or replace any damaged MINOX rifle scope with no questions asked.

*Warranty does not cover fire, theft, loss, or intentional damage.
